3) Price includes total costs of e-invoices, sent or received through Maventa. If other banks are used, invoicing for e-invoice service fees is handled separately by the bank in question

4) If Visma Solutions Oy makes a copy of the material, the cost of time spent will be added to the price (€140/h)

5) Price is added to normal transaction fee

6) The eScan price will also be charged if attachments, or attached receipts, are sent directly to bookkeeping. If the user has travel and expenses invoicing as an additional service, eScan will be included in this.

Visma Solutions Oy reserves the option of pricing the interface according to the materials transferred on a transaction-by-transaction basis. The pricing is based on the price of the e-invoice.
