Transaction fees are charged based on the actual volume category of the transaction type

3) Price includes total costs of e-invoices, sent or received through Maventa. If other banks are used, invoicing for e-invoice service fees is handled separately by the bank in question. 4) If Visma Solutions Oy makes a copy of the material, the cost of time spent will be added to the price (€160/h). 5) Price is added to normal transaction fee. 6) eScan debits are invoiced on a transaction basis from imported receipts or vouchers. Invoicing for travel and related expenses additional service includes these charges as part of the monthly user fee, except for transactions imported via the interface. 7) The transaction fee consists of earning payment reports and separate reports.

Visma Solutions Oy reserves the option of pricing the interface according to the materials transferred on a transaction-by-transaction basis. The pricing is based on the price of the e-invoice.
